

OPEN DATA

Mexico IVF published prices

Independent report · 2026 edition

OBSERVED MEDIAN

\$86,400 MXN

of each clinic's lowest published IVF price. A market reference, not a final quote.

RANGE

**\$48,000 MXN to
\$183,600 MXN**

MIDDLE 50%

**\$72,500 MXN to
\$113,500 MXN**

PUBLISHED SAMPLE

**19 prices across 11
cities**

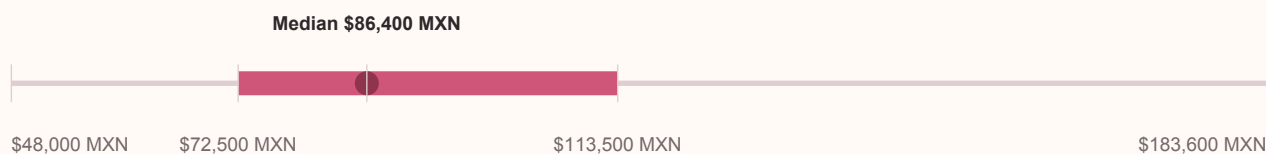

One figure per clinic: the lowest public IVF price found. Packages are not equivalent.

Published prices, in context

The median is more informative than the extremes. The middle 50% shows where published prices cluster.

OBSERVED DISTRIBUTION

11 prices describe the package

A missing note does not mean nothing is included; the source does not specify it.

6 mention medication

Packages are not equivalent: medication, ICSI, PGT, freezing and transfer may be included or separate.

About the dataset: 19 of 200 clinics offering IVF publish a usable numeric price (9.5%).

Clinic-published prices

One row per clinic, ordered by its lowest published IVF price. Notes preserve the source meaning.

CLINIC / CITY	PRICE	PUBLISHED PACKAGE	SOURCE
Hope IVF CDMX Ciudad de México	\$48,000 MXN	4 ultrasonidos, 12 exámenes hormonales, captura de óvulos (máx 2), 1 fecundación, 1 transferencia en fresco, fertility coaching	01 hopeivf.mx 2026-07-19

How this report was built

A deliberately narrow method designed to avoid presenting estimates as facts.

1. Universe

200 directory clinics state that they offer IVF.

2. Selection

We include 19 clinics with a numeric figure on their public site and count the lowest IVF price per clinic.

3. Exclusions

We exclude private quotes, market estimates and figures not clearly published for a specific clinic.

4. Date

Dataset verified September 4, 2026. Every row retains its source access date.

Limitations

Packages are not equivalent. A published price may exclude medication, tests, consultations, ICSI, PGT, freezing, storage or transfer. This report is not a quote, clinic recommendation or success-rate comparison.
